

**PV-IPEC Spring Semester IPE Clinical Day  
[Dementia Simulation]**

**Westfield State University  
Nettie Stevens Science and Innovation Center,  
1<sup>st</sup> floor  
577 Western Ave, Westfield, MA 01086  
April 14, 2020**

**Session #1: 10:00 AM – 12:00 PM**  
*(Please arrive at least 15 minutes early)*

**Summary:** Provides an opportunity to better understand the patient perspective of someone experiencing dementia.

**Format & Learning Objectives:** Participants will participate in experiential learning that simulates the experience of living with dementia as well as a guided discussion on the science of dementia and how healthcare providers may better support persons experiencing the disease. Students will gain insight into patient perspectives and how they interact with their world. Students will articulate their professional role in providing care and how they may coordinate with other interprofessional providers in supporting dementia patients and their families.

**Event Details:**

Parking is available in the Commuter Lot immediately adjacent to the Science Center, as well as, in the other WSU parking lots. A parking pass will be provided to registrants to place in their car windshield. Carpooling is recommended as parking on WSU campus during this time can be competitive.
